PATENT COOPERATION TREATY

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference 501800 EMN/mjw	FOR FURTHER ACTION	See Form PCT/IPEA/416		
International application No. PCT/NZ2004/000173	International filing date (day/month/yea 4 August 2004	Priority date (day/month/year) 4 August 2003		
International Patent Classification (IPC) or national classification and IPC				
Int. Cl. 7 H05K 7/20				
Applicant				
RAYHILL LIMITED et al				
	•			
This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36.				
2. This REPORT consists of a total of 3 sheets, including this cover sheet.				
3. This report is also accompanied by ANN	TEXES, comprising:			
a. X (sent to the applicant and to the International Bureau) a total of 10 sheets, as follows:				
sheets of the description, claims and/or drawings which have been amended and are the basis for this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).				
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.				
b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)), containing a sequence listing and/or table related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).				
4. This report contains indications relating to the following items:				
X Box No. I Basis of the report	Box No. I Basis of the report			
Box No. II Priority	Priority			
Box No. III Non-establishmen	o. III Non-establishment of opinion with regard to novelty, inventive step and industrial applicability			
Box No. IV Lack of unity of in	Lack of unity of invention			
	Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement			
Box No. VI Certain documents	Certain documents cited			
Box No. VII Certain defects in	Certain defects in the international application			
Box No. VIII Certain observation	Certain observations on the international application			
Date of submission of the demand Date of completion of the report				
14 April 2005		15 November 2005		
Name and mailing address of the IPEA/AU	Authorized Officer

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/NZ2004/000173

Box No. I Basis of the report
 With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item.
This report is based on translations from the original language into the following language which is the language of a translation furnished for the purposes of:
international search (under Rules 12.3 and 23.1 (b))
publication of the international application (under Rule 12.4)
international preliminary examination (under Rules 55.2 and/or 55.3)
With regard to the elements of the international application, this report is based on (replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report):
the international application as originally filed/furnished
X the description:
pages 1,7 as originally filed/furnished
pages* 2-6 received by this Authority on 11 November 2005 with the letter of 11 November 200 pages* received by this Authority on with the letter of
X the claims:
pages as originally filed/furnished
pages* as amended (together with any statement) under Article 19
pages* 8, 9 received by this Authority on 11 November 2005 with the letter of 11 November 2005 pages* received by this Authority on with the letter of
X the drawings:
pages as originally filed/furnished
pages* 1/3-3/3 received by this Authority on 11 November 2005 with the letter of 11 November 2005 pages* received by this Authority on with the letter of
a sequence listing and/or any related table(s) - see Supplemental Box Relating to Sequence Listing.
The amendments have resulted in the cancellation of:
the description, pages
the claims, Nos.
the drawings, sheets/figs
the sequence listing (specify):
any table(s) related to the sequence listing (specify):
This report has been established as if (some of) the amendments annexed to this report and listed below had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).
the description, pages
the claims, Nos.
the drawings, sheets/figs
the sequence listing (specify):
any table(s) related to the sequence listing (specify):
If item 4 applies, some or all of those sheets may be marked "superseded."

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/NZ2004/000173

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1.	Statement		
	Novelty (N)	Claims 1-12	YES
		Claims	NO
	Inventive step (IS)	Claims 1-12	YES
		Claims	·NO
	Industrial applicability (IA)	Claims 1-12	YES
	·	Claims •	NO

2. Citations and explanations (Rule 70.7).

The invention is an air circulation and ventilation unit including housing to fit at least partially over ceiling of equipment cabinet including over at least one vent in ceiling, interior of housing in communication with interior of cabinet, housing includes housing vent closure moveable between open position, air flow through vent between outside and inside of housing, and closed position, little or no airflow through vent between outside and inside of housing, and controller to control position of housing vent closure.

The closest prior art, US 4495545 A, provides such a housing and controller, but the airflow through the vent is not determined only by the position of its closure.

All claims, 1-12, are both novel and inventive, and have industrial applicability.
